

/// FLUID HANDLING

Select's Fluid Handling service line includes a large fleet of fluid service trucks capable of hauling up to 130 barrels. Strategically positioned across the United States, our fleet of vacuum trucks, winch trucks, hydrovac, hot oilers and frac tanks allow us to be responsive to all of your transportation needs. We also offer a wide range of tank washout solutions to prolong the life of your equipment. Add in our large network of owned and operated disposal wells, and you'll see our ability to handle your water logistics is unmatched.
