

/// TANK WASHOUT SERVICES

Select Energy Services provides safe and efficient cleaning services for all of your fluid hauling and storage tanks. Our team is trained to work in confined spaces and with specialized 3000psi pumps capable of heating water up to 150 degrees. We have tank washout facilities and mobile units ready to help you extend the life of your equipment, reduce failures, and maximize productivity, all at a flat rate price.*

+ On-Site Washout Locations

Select offers tank washout services in several of our locations. We can provide winch services to transport equipment to and from the following facilities:

- Kenedy, TX
- Big Wells, TX
- Brighton, CO

+ Mobile Washout Unit Locations

Select can dispatch mobile washout units to clean equipment directly on-site or to assist with spill clean-ups from the following facilities:

- Odessa, TX
- Pecos, TX
- Frierson, LA
- Avondale, TX

+ Equipment We Service

- Vacuum Trucks
- Tank Trucks
- Frac Tanks (gas busters, mud, acid, weir)
- Production Tanks / Batteries
- SWD Tanks
- Oil Storage Tanks
- Hydrovac services are available for extreme tank cleaning*

*Extreme cleanouts are billed at a pre-negotiated hourly rate

To make water work in your operation, it's going to take more than just rethinking the water cycle. It's going to take reinventing the water cycle. And that's just what we did. At Select Energy Services, we strive to change the oil and gas industry's approach to water management. By providing strategic solutions from sourcing to recycling and everything in between, we deliver efficient, end-to-end solutions to producers in each major US shale play.

100% WATER FOCUSED.
